MEMORANDUM FOR: Deputy Director of Central Intelligence

FROM: Daniel A. Childs, Jr.
Comptroller

SUBJECT: PFIAB and Congressional Staff Inquiries (C)

1. Your note of 5 May on central responsibilities for fielding inquiries from PFIAB and Congressional staffs will hopefully improve what is now a very confusing situation. Frankly, we are getting reports of contacts with Congressional staffers, in particular, from throughout the organization.

2. I fear, however, that your note will further confuse matters in one area--Congressional contacts on resource questions. As the attached note from the former D/O/L shows, Congressional inquiries on the budget have historically been handled by this Office. We assume your memo did not intend to alter this arrangement and will continue to handle budget-related Congressional inquiries unless we hear from you otherwise.
